

# TRACTION

## DAILY CLEANER & DEGREASER

ProBlend SureGrip Daily Cleaner & Degreaser is the first line of defense in the battle against slippery floors. Unlike most cleaner-degreasers, it is alkaline free. Alkaline cleaners leave residue behind and will turn a wet floor into a serious slip hazard. Our **Daily Cleaner & Degreaser** emulsifies and suspends oil, grease, and other contaminants, lifting from deep in the microscopic pores of the floor surface. Once the grease is emulsified, it can easily be extracted or rinsed away leaving the floor surface residue-free. When **ProBlend SureGrip Daily Cleaner & Degreaser** is used daily it will reduce the occurrence of polymerization, greatly improving surface traction.

Program Listed A1, A4  
NSF Reg. #128064

### Recommended Uses

- **All flooring including:**  
Slate Ceramic  
Saltillo Quarry  
Recycled PVC  
Concrete
- **Equipment**

Terrazzo  
VCT  
Marble  
Wood

- **Walls**

- **Alkaline free - No slippery residue**
- **Effectively emulsifies grease**
- **Contains no phosphates, butyl, or bleach**
- **Cost effective**
- **NSF registered and approved**
- **NFSI certified**

### Data

**Appearance:** Green Liquid  
**DOT Hazardous Ingredients:** None  
**Boiling Point:** 212°F (ASTM D-1120)  
**Flash Point:** >101°C (ASTM D-56) Tag closed cup

**Odor:** Fresh  
**Vapor Pressure (mm/hg):** 17mm @ 20°C  
**Solubility in water:** Complete

# Why ProBlend | SureGrip?

The National Floor Safety Institute was founded in 1997 as a not-for-profit 501 (c)(3) organization whose mission is to aid in the prevention of slips, trips-and-falls through education, research, and standards development. ProBlend SureGrip "TRACTION" Daily Cleaner and SureGrip Treatment Formula have been tested and officially certified by the NFSI as providing "High Traction".

For more information go to: <http://nfsi.org>

The International Board of Environmental Health and Safety endorses **SureGrip Floor Safety Solutions and SureGrip Daily Cleaner**. IBOEH was established by its peers with the mission of improving professionalism for those in the field of occupational safety and environmental health and continues to strive in helping its members achieve a safe workplace.

In implementing a floor safety program, the IBOEH states: "Having tried numerous products we determined that the **SureGrip** products were the most effective, especially the Daily Cleaner. Its unique quality of not only being able to break up the grease but actually suspends it providing for an effective rinse - therefore leaving a residue free floor. The product is also non-alkaline, an advantage for leaving the floor free from residue."

For more information go to: <http://www.suregripfloors.com/downloads/certifications.html>

ProBlend SureGrip Daily Cleaner is **registered with NSF International / Nonfood Compounds Registration Program** under Category A1 (General Purpose Cleaner) and A4 (Floor and Wall Cleaner) and is considered to be an acceptable product to be used in food preparation areas. Part of the criteria for NSF Registered cleaners is that the product shall not "exhibit a noticeable odor nor leave behind a visible residue". ProBlend SureGrip Daily Cleaner is residue-free, making it a safer choice than other floor cleaning products.

On September 14, 1998, former President Clinton signed Executive Order (EO)13101, entitled "Greening the Government through Waste Prevention, Recycling and Federal Acquisition." In the Executive Order, "Environmentally Preferable" is defined in Section 201 of EO 13101 to mean products or services that "have a lesser or reduced effect on human health and the environment when compared with competing products or services that serve the same purpose. ProBlend SureGrip Daily Cleaner contains no phosphates, butyl, chlorine or ammonia as found in most degreasing floor cleaning products and has a HMIS Health Rating of a "1", the safest rating.
