

# Santex

Disinfectant, Fungicide & Fabric Sanitizer  
*Desinfectante, Fungicida y Sanitizante de Telas*

## Residual Self-Sanitation at 3 oz per 100 lb of Fabric

**Ready-To-Use Liquid Fabric Sanitizer** designed for on-premise laundries and smaller machines. Used in the final rinse, Santex leaves behind a finish that is both self-sanitizing and bacteriostatic. This active antimicrobial finish kills newly acquired bacteria with a “Zone of Inhibition.”

Under conditions of contamination, Santex continually eliminates 99.9% of infectious bacteria. Unlike bleach, which stops working after textiles are removed from the wash-wheel, Santex remains active on the textile surface, continuing to aid in the prevention of cross-contamination from both *Gram Negative* and *Gram Positive* bacteria, such as:

- *Corynebacterium ammoniagenes*
- *Escherichia coli* O157:H7
- *Listeria monocytogenes*
- *Staphylococcus aureus* – CA-MRSA
- *Staphylococcus aureus* – HA-MRSA
- *Enterobacter aerogenes*
- *Klebsiella pneumoniae*
- *Pseudomonas aeruginosa*
- *Salmonella enterica*
- *Staphylococcus aureus*

**NOTE:** EPA registered products may not be available for sale in all states. Confirm for availability in your state.

Item Code      Case  
**PBOEDM01AB 5 GAL**

### KEY FEATURES:

- Reduces bacterial count by 99.9%
- Kills odor causing bacteria
- Remains active until laundered
- Won't irritate skin
- Won't harm fabrics

### APPLICATIONS:

- Sheets, bedding, pads & comforters
- Scrubs, gowns & uniforms
- Drapes, curtains & room dividers
- Towels
- Athletic wear & uniforms

### PERFECT FOR:

- Healthcare
- Institutional
- Sports Teams
- Day Cares
- Correctional Facilities
- Nursing Homes
- Schools
- Health Clubs
- Hotels
